

FINAL PROGRAM

The Johns Hopkins University
Provost's Office and Urban Health Institute Proudly Present

The 2nd Annual Symposium on the Social Determinants of Health: Action for Equity

April 23, 2013
Shriver Hall Auditorium
Johns Hopkins University Homewood Campus

VISION

It is the goal of the 2013 Symposium on the Social Determinants of Health is to focus on the underlying factors that are the root causes of health inequalities in Baltimore and to identify the evidence based strategies that have been shown to be effective locally and nationally.

OBJECTIVES

1. To create a learning opportunity that will bring together Hopkins faculty, administration, students, engaged community residents, service professionals and leaders to increase awareness and to collectively identify the central social and neighborhood factors that contribute to the inequalities of health seen in Baltimore.
2. To bring together experts (researchers and practitioners) from all relevant sectors to share evidence-based strategies that promote health equity at the community level.
3. To highlight innovative partnerships for research and service delivery that address the social determinants of health.
4. To identify priorities for Baltimore over the next few years to address the social determinants of health.
5. To strengthen existing relationships and foster new ones among and between Hopkins and community partners that together reduce the health inequalities that characterize Baltimore and many American cities.

FINAL PROGRAM

8:30 AM–8:45AM
